7(a)

Review carried out by the agency	YES
Information made publicly available by the agency	YES

The Cancer Institute NSW conducts, initiates and supports activities, both internally and externally, that generate results, findings and information of value to its mission to lessen the impact of cancer on members of the public. A key function of the Cancer Institute NSW is to ensure there is public access to this information, subject to any overriding public interest against disclosure.

Resources that are proactively released by publication on the website of the Cancer Institute NSW, which is regularly updated, include publications, media releases, Cancer Fact Sheets, policy documents, statistics, patient support information, best practice guidelines and professional development opportunities for health professionals, and information regarding research grants, clinical trials support and research awards. Making information publicly available through the website is integral to the design and implementation of new initiatives. During the reporting period, a full rescope of the Cancer Institute NSW websites was undertaken with a new integrated website developed to better support people with cancer and improve user experience for all audiences. The new website will be launched in 2020/21.
